

Application form for fertilisers and related products

Bio Garancia Kft., Hungary

1. Details of the applicant and product name					
Applicant company:					
Date of application:					
Product name: (the product will be listed under this name with Bio Garancia Kft)					
The product is identical in terms of composition and manufacturing process to	If applicable, please provide the product name / trade name of the product already listed:				
the following product already listed with Bio Garancia Kft.:					
Is the product already listed with the	If so, please specify the product name / trade name:				
European Input List?					
☐ yes					
not known					
Are there any other trade names for the	If so, please provide the trade names:				
product? ☐ yes					
□ yes					
not known					
2. The product is a					
Self-manufactured product (i.e. the applicant company is the manufacturer of the product)					
Trade product (i.e. the applicant company is the distributor/	The manufacturer of the product is:				
retailer of the product)					

3. In which product category should the product be listed? (Please specify only one category!)						
N-rich fertilisers (guideline: N> 5%, P ₂ O ₅ <2%, K ₂ O<2%)						
P-rich fertilisers (guideline: N<2%, P ₂ O ₅ >5%, K ₂ O<2%)						
K-rich fertilisers (guideline: N<2%, P ₂ O ₅ <2%, K ₂ O>5%)						
Compound fertilisers (various organic fertilisers; combination of main nutrient and micronutrient fertilisers)						
Lime, magnesium and sulphur fertilisers (lime fertilisers based on natural carbonate, gypsum, dolomite and fertilisers based on elemental sulphur)						
Foliar and micronutrient fertilisers (fertilisers containing trace elements or easily soluble calcium and magnesium compounds)						
☐ Micronutrient fertilisers for substrates	and soils					
☐ Stone meal						
☐ Soil additives						
Plant additives (products containing only small amounts of nutrients; homeopathic preparations; products authorised in Hungary as "plant strengtheners")						
☐ Algae extracts						
Microorganism preparations (products consisting mainly of microorganism cultu	res)					
☐ Rhizobia cultures / soil inoculants						
☐ Seed treatment products						
☐ Additives for fertilisers, slurry, manure	e, compost and biogas					
☐ Compost and fermentation products						
☐ Mulch materials, pots and technical materials	aterials					
☐ Substrates and soils: ☐ with peat ☐ without peat						
☐ Substrate components						
4. General information about the nature and intended use of the product						
Product characteristics: solid liquid						
Area of application: Soil	other:					
☐ foliar						
seed						
Application rate (kg/ha or l/ha):						
Number of applications per growing season:						

5. Product composition

- Please provide the **full composition** of the product **with all components** (i.e. including **all co-formulants/additives**). The total percentage must add up to 100%. If a component consists of several individual components, please attach a separate document with the full formulation of the component.
- Is a component already listed with Bio Garancia Kft.? Please tick the box "Comp. already listed with Bio Garancia Kft.
- Components from organic farming are highlighted. Please tick the box and enclose a valid organic certificate.

Component (list all components as well as all co- formulants / additives)	CAS Number or, for micro- organisms: strain ID	Percentage Exception for soils and substrates: small amounts can b given in mg/l o kg/m³ (please unit!)	e r	Function in the product (e.g. fertilising effect, soil improvement, substrate component; preservative, dispersant, pH regulator, flocculant, complexing or chelating agent, defoamer, colourant, solvent etc.)	Raw material (material from which the component is manu- factured)	Country of origin (of the raw material)	Manufacturer / supplier	Comp. already listed with Bio Garancia Kft.	From organic farming

			%						
Total: %		The total of the percentages must add up to 100%! (Automatic calculation only works correctly with percentages.)							

6. Mandatory additional information on the product and manufacturing process						
		No	Ye	es	Further details	
Does the overall product contain genetically modified organisms (GMOs) or is it produced using genetically modified organisms? ¹					Please enclose the form "Declaration of compliance with the prohibition of genetically modified organisms", relating to the entire product	
	duct contain PFAS (per- oalkyl substances)?				-	
(i.e. 50% or more	nanoparticles used? e of the particles are in the nm and 100 nm)				-	
Is synthetic nitrogen used in the manufacture of the entire product (or of individual components)?					If so, in what form? e.g. urea, nitrate, ammonium, quaternary ammonium compounds (QAV or quats), etc.	
	ng aids used during				If so, which ones?	
	Please also list these if they are no longer present in).					
	wood: is the wood				If so, with what?	
chemically treated after felling?						
When using a	-	_		I confirm that the products comply with the requirements of Regulations (EU) 1069/2009 and 142/2011.		
(Please indicate	parameters of the producthe quantitatively relevant nutrient oils and substrates: values can be	s in %, wi				
N		%		Mn	%	
P ₂ O ₅		%		Мо	%	
K ₂ O		%		Na	%	
В		%		S	%

MgO		%	mat		ter	

¹ Potentially genetically modified organisms: corn, rapeseed, soybeans, sugar beet, sugar cane, microorganisms, fermentation products, vinasse, etc.

8. Documents that must be enclosed with the application					
All enclosed documents must be labelled in such a way that the content is clearly evident from the document name (e.g. product_name_registration_form.pdf, product_name_GMO_declaration.pdf, product_name_manufacturing_process.pdf, component_name_organic_certificate.pdf, etc.).					
Labels (accompanying document, etc.), including recommendations for use					
☐ Detailed description of the manufacturing process, including intermediate steps					
☐ Current analysis results not older than one year (accredited laboratory, accredited methods)					
☐ Safety data sheets for the product and product components (if applicable)					
For products with components from organic farming: Ualid organic certificate issued by an accredited organic inspection body for these components					
For biodegradable mulch films and similar products (e.g. biodegradable pots): Certificate in accordance with test method DIN EN 17033					
For products/components made from animal excrement (solid / liquid / fermented / composted) and egg shells: Proof that the product or component does not originate from industrial animal husbandry² (documents proving the type of animal husbandry)					
When using vinasse / potassium vinasse: Description of the manufacturing process for vinasse / potassium vinasse Form "Declaration of compliance with the prohibition of genetically modified organisms" for vinasse / potassium vinasse N analysis (total N, nitrate N, ammonium N and urea N) Which extraction agent is used? (specify type, total quantity and proportion in the end product)					
For products containing components shell waste: [Form "Declaration of conformity with aquatic environment"			Igae, mollusc waste, chitin or requirements for materials sourced from		
For algae products: Are the algae extracted?	No	Yes	If so, please enclose the form "Declaration of extraction of seaweed products"		
For products containing microorganisms: □ Precise specification of the growing medium					
Does the product contain residues of the growing medium?	No	Yes			
Does the product contain residues of antibiotics?	No	Yes			
Other documents:					

Based on the Austrian interpretation: The following animal husbandry systems are excluded: fully slatted floor, cage farming, poultry keeping without free range (in accordance with *DURCHFÜHRUNG DER VO (EU) 2018/848 - Nationale kontrollrelevante Klarstellungen zur VO (EU) 2018/848 idgF*)

18.11.2025 15:30:29 2002375EN_HU.docx Termésnövelő anyagok és kapcsolódó termékek regisztrációs lapja

9. Confirmations						
☐ I confirm that all components of the product (including co-formulants/additives) have been listed in Section 5, Product composition (not relevant for identical products already listed, see Section 1).						
☐ I confirm that the product may be placed on the market in Hungary and that the official requirements for this have been met.						
	☐ I undertake to notify Bio Garancia Kft. immediately of any changes regarding product composition, manufacturing process and changes to the nutrient composition.					
☐ I confirm that all information provided in this form and the enclosed documents is correct and complete.						
Despite careful processing, all information in the online product search and on the product confirmations is provided without guarantee. Bio Garancia Kft. and EASY-CERT services organic inputs evaluation excludes any liability.
